International Group for the  
Psychology of Mathematics Education

The International Group for the Psychology of Mathematics Education (PME), is a group of researchers, established in 1976 at the International Congress on Mathematics Education (ICME3) in Karlsruhe, Germany. The aims of the organization are:

1. to promote international contacts and exchange of scientific information in the field of mathematical education;
2. to promote and stimulate interdisciplinary research in the aforesaid area; and
3. to further a deeper and more correct understanding of the psychology and other aspects of teaching and learning mathematics and the implications thereof.
