

**Dr. Nasser H. Al-Uwaishiq**  
**General Director of Content Standards and Assessment**  
**Tatweer for Educational Services Company (T4edu)**

Dr. Nasser Al-Uwaishiq joined the Tatweer for Educational Services Company (T4edu) in January 2015 as the General Director of Content, Standards and Assessment, where he holds responsibility for the development of all printed and digital content, standards and assessment. Dr. Al-Uwaishiq has a broad experience in the areas of curriculum and content development; he has worked for ten years in Obeikan Education as the Director of K-12, where he successfully completed huge long-term projects in curriculum development and professional development in the Kingdom of Saudi Arabia, Bahrain and Qatar. Prior to that, he was the Mathematics Development Manager, in the same company, where he led and participated in editing, translation, localization and editing of more than 250 textbooks. He also led the development of the Mathematics Framework and Standards, and the development of standardized tests as a part of an assessment project for the Arab Bureau of Education for the Gulf States (ABEGS). During that period, Dr. Al-Uwaishiq held many professional development and training programs, and presented papers in conferences in the areas of curriculum locally and globally.

Prior to joining Obeikan, Dr. Al-Uwaishiq spent twenty years in the Ministry of Education in Saudi Arabia, where he began his career as a Mathematics teacher in different grade levels in Riyadh, and then as an educational supervisor, then moved on to work in the Curricula Department of the Ministry of Education, and became the head of Mathematics Curriculum Dept. During that period, he participated in developing the Mathematics curriculum framework in K-12, also participated in the development and modification of the math textbooks for the elementary and intermediate schools. Then he became an adviser for the Undersecretary for Educational Development in the Ministry, where he participated in development of the Leading Schools Model. He also participated in the preparation of the KSA educational development framework. He participated in many committees and conferences of local, regional and international in-relevant field of his work, and attended multiple training programs inside and outside the Kingdom.

Dr. Al-Uwaishiq holds a PhD degree in Curriculum from the King Saud University, a Master degree in Mathematics Education, and a Bachelor of Mathematics from the same university. He also attended many advanced professional development programs in the fields of Leadership and Education at INSEAD, London Business School, the University of Columbia, and Melbourne University.

Dr. Al-Uwaishiq has interests in his field, such as; Mathematics Education, Problem Solving, Teachers' Professional Development and eLearning.
